## The Speed Pass: Priority remote service

Kdesign has always offered and will continue to offer reliable service for all Kdesign equipment to all its customers.

With now more than 5000 units operating all around the globe Kdesign faces the challenge to deliver equally swift remote support to all customers. Therefore Kdesign now gives those customers with a special focus on high uptime the opportunity to cut the queue.

### Your benefits with the Speed Pass

- Your remote service requests are handled with superior priority resulting in minimal down times of your lines
- You receive a contingent of remote service hours, included without extra charge
